

Novartis Nurse Service

This programme provides you with access to a dedicated and experienced Novartis nurse service, who have impacted the lives of >2000 MS patients nationally with their individualised service.³

KESIMPTA® Support Programme

Support at every stage of treatment

Novartis Nurse Service

Your doctor may refer you to the Novartis Nurse Service before you start your treatment.

What to expect with the KESIMPTA® Support Programme

- You will have access to a dedicated KESIMPTA® Support Nurse who will provide you with personalised support throughout your treatment
- Provision of education surrounding the safety considerations associated with your treatment
- Reminders to attend followup appointments as recommended by your doctor or specialist nurse
- The KESIMPTA® support nurse will be available to answer questions you may have about your treatment and the KESIMPTA® Support Programme

** Available 9am – 6pm, Monday to Friday (excluding public holidays). If your call is not answered please leave a message and a nurse will return your call within 24 hours.*

KESIMPTA® sharps bin service

Injection Care Management System

What does HealthBeacon do?

Reminds

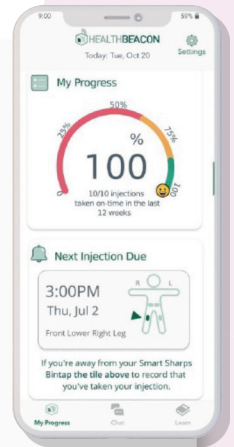

HealthBeacon will help keep you on track with your injection schedule by reminding you when it's time to take your medication. Your unit will light up and you'll receive a reminder via **text message**. You can customise your reminder preferences in the **Companion App**. You will also be reminded to rotate your injection site each time you take your injection.

Tracks

HealthBeacon will help you track your progress by calculating your **on-time adherence score** which is displayed on your HealthBeacon unit's screen and in your Companion App. The Companion App also stores and displays a record of all your previously taken injections.

Visit the *Learn* section of the Companion App for a detailed description of adherence/on-time score and to access additional patient resources such as injection training videos and patient leaflets.

Safely Disposes

The HealthBeacon unit will **safely store** your used injections and will monitor the capacity of the internal sharps bin. The HealthBeacon Smart Sharps Bin and Companion App will let you know when it is almost full and the HealthBeacon Customer Care team will get in touch with you to provide you with a replacement sharps bin and arrange collection of your used sharps bin. You can also request a replacement sharps bin directly within the Companion App.

Greener Lifecycle

HealthBeacon Sharps Bins are re-used following a cleansing process at Healthbeacon Green Labs and your injection waste is recycled, saving refuse disposal and reducing Co2 emissions.

Support

HealthBeacon's Customer Care Team is on hand for any questions regarding your HealthBeacon unit or Companion App. You can simply contact HealthBeacon by freephone 01-211 8371 or email support.ireland@HealthBeacon.com
